Sterile 2ml vials, sterile ISO serum vials, sterile 10ml vials, sterile 20ml vials, sterile 30ml vials, sterile 50ml vials, sterile 100ml vials

Compounding Pharmacies and CDMO cGMP Compliant Customers -both sealed and unsealed ready to fill (RTF) **sterile vials** are immediately available! Also available: matching **sterile stoppers** and **sterile seals** sold separately

IVPACKS offers 2 categories of sterile vials:

- [sealed sterile vials](#) – stoppered and sealed to be filled with a syringe (ALK Abello). Sealed sterile vials are ideal for 503a pharmacy customers, educational, small medical office or pharmaceutical research applications.
- [ready to fill open sterile vials](#) – must be opened in a cleanroom environment, as these have neither stoppers or seals. Filling, stoppering and sealing must be performed by the end user in a cleanroom facility. Currently, we offer OMPI brand and Gerresheimer brand open sterile vials Ready to Fill.
